Re: PDC Case 143583

Commissioners,

I am asking for one thing: Please make PDC Case 143583 a priority.

This case has now been open for nearly 1,100 days.

For nearly three years, this unresolved matter has affected me and other residents of Grant County. It has continued through multiple election cycles and into the current 2026 election cycle.

The delay itself is now having consequences.

People are becoming afraid to file complaints or speak up when they believe something is wrong because they see what can happen to those who do. People who raise concerns can face personal attacks, intimidation, harassment, and retaliation.

I know that personally.

People should not be afraid to report possible campaign finance violations because they fear they will be publicly attacked while the underlying complaint remains unresolved for years.

Regardless of what the PDC ultimately determines, almost 1,100 days is long enough for this matter to remain unresolved.

If there were no violations, make that determination.

If violations occurred, take the appropriate action while enforcement remains available.

But please make this case a priority and bring it to a resolution.

The people of Grant County deserve an answer, and people who come forward with concerns need to know that doing so will lead to a timely review rather than years of uncertainty.

Please prioritize PDC Case 143583.

Respectfully,

Andrew Koeppen
